2. Feature Comparison by Model Version

X9 / New X9 refers to the same new-generation model in overseas markets, with naming varying by market.

2.1 X9 / New X9 (Overseas Markets) vs Previous X9 (Overseas Markets)

2.1.1 Exterior & Interior Changes [Not for European Users]

Note: The previous X9 was not available in the EU, so you may omit this part for our European users. This information is intended for ROW (Rest of World) users only.

A. Exterior – Starship Design

Area	Update Item	Change Description	Illustration
------	-------------	--------------------	--------------

Overall Design	Starship Exterior Concept	New “Starship” design language, moving away from traditional boxy MPV styling toward a more dynamic and flowing appearance
Front Design	Front Bumper & AGS	Redesigned front bumper with removal of fish-scale pattern and addition of external AGS (Active Grille Shutter)
Side Design	Side Trim	Optimized side trim design for a cleaner and more integrated look
Rear Design	Rear Bumper & Trim	Optimized rear bumper and trim design to enhance overall visual balance
Body Surface Design	Sculpted Surface Design	More sculpted and flowing body surfaces, creating a wider visual field and dynamic motion
A-pillar	21° A-pillar Angle	Breakthrough 21° A-pillar angle, creating a smoother and more flowing front profile

Rear Window	23° Rear Window Angle	Large-angle rear window design improves aerodynamics while enhancing sporty appearance
Front Face	X-ROBOT FACE 2.0	Comprehensively evolved X-ROBOT FACE 2.0 front design with supercar-style intelligent AGS
Aerodynamics	Low-Drag Design	16 low-drag design features achieving an ultra-low drag coefficient of 0.236 Cd

B. Interior – Starship First Class Cabin

Area	Update Item	Change Description
Cockpit	Integrated W-HUD	W-HUD integrated with dashboard design for a more cohesive cockpit layout
Steering Wheel	New Steering Wheel	New steering wheel design with upgraded capacitive controls

Audio Details	Speaker Grille	Improved speaker grille material texture
Air Vents	Ceiling Air Vent Design	Optimized ceiling air vent design and detailing
Controls	Window Lever Buttons	Platformized window lever button design for consistency
Second Row Doors	Door Trim & Sill	Second-row sliding doors upgraded with 3D metal trim and improved door sill design
Door Panels	Upper Door Panel Design	New design above the waistline of first- and second-row door panels, combined with optimized speaker grille design and materials
Interior Colors	New Color Options	New interior color options with optimized color matching

• Q&A

Question	Answer
<p>Compared with the previous X9, what has changed in the exterior design of the X9 / New X9?</p>	<p>Compared with the previous overseas X9, the X9 / New X9 features a new exterior design with a more dynamic and streamlined look.</p> <p>Key changes include:</p> <ul style="list-style-type: none"> • Redesigned front and rear bumpers, with an updated front design and external Active Grille Shutter (AGS) • More flowing body surfaces, moving away from a boxy MPV appearance • Updated front face (X-ROBOT FACE 2.0) • Improved aerodynamics, with multiple low-drag design features

Compared with the previous X9, what has changed in the interior of the X9 / New X9?

Overall, the new model looks more modern and more refined than the previous X9.

Compared with the previous overseas X9, the interior of the X9 / New X9 is refined in design and materials, while keeping a familiar layout.

Key updates include:

- Integrated Windshield Head-Up Display and dashboard design
- New steering wheel with upgraded controls
- Improved materials and detailing, including speaker grilles and trim
- Refined door panel and air vent designs
- New interior color options (market-dependent)

Overall, the interior feels more premium and more cohesive compared with the previous X9.
